Profile

Results-driven Associate Software Engineer with 2+ years of experience in full-stack development using Angular and .NET Core. Adept at implementing Clean Architecture and Domain-Driven Design (DDD) principles to build scalable applications. Experienced in front-end frameworks (PrimeNG, Bootstrap, KitBuilder) and backend technologies (SQL Server, MySQL). Proficient in integrating third-party tools like SendGrid for email automation and Hangfire for background job scheduling. Passionate about writing clean, maintainable code and problem-solving within Agile environments.

Skills

Languages: C#, JavaScript, TypeScript, HTML, SCSS, CSS
Frameworks: Angular, .NET Core, Tailwind, Bootstrap, PrimeNG
Tools
Databases: SQL Server, MySQL, Hangfire, KitBuilder, SendGrid

Education

Krishna Institute of Technology, Kanpur – Bachelor of Technology (2019 - 2023)
Jawahar Navodaya Vidyalaya, Sirmour, Rewa MP – Intermediate (2017)
Jawahar Navodaya Vidyalaya, Sirmour, Rewa MP – High School (2015)

Work Experience

Step2Gen Technologies Pvt Ltd – Associate Software Engineer (Feb 2023 - Present)

- Developed full-stack web applications using .NET Core, C#, and Angular.
- Created responsive and dynamic UIs using Angular, PrimeNG, and Bootstrap.
- Designed, optimized, and managed databases with SQL Server and MySQL.
- Integrated third-party services like SendGrid for email notifications and Hangfire for job scheduling.

Projects

Asset Management System (Apr 2023 - Present)

- Built a centralized platform for managing and tracking assets across multiple locations.
- Automated maintenance scheduling and reporting, reducing manual efforts.
- Technologies: Angular, PrimeNG, .NET Core, Hangfire, MySQL, SQL Server.

E-Commerce Order Management System (Nov 2023 - Mar 2024)

- Developed a system to manage orders, track shipments, and streamline manufacturing workflows.
- Integrated EasyPost API for seamless shipping and tracking, enhancing efficiency.
- Implemented interactive 3D product views using KitBuilder for better user experience.
- Technologies: Angular, PrimeNG, .NET Core, Hangfire, SQL Server, KitBuilder, SendGrid.

Event Management System (Feb 2023 - Oct 2023)

- Developed a platform for creating and managing events with role-based access control.
- Automated email notifications using SendGrid to keep users informed.
- Integrated Hangfire for scheduling event-related background tasks efficiently.
- Technologies: Angular, PrimeNG, .NET Core, ABP.IO, Hangfire, SQL Server.
